

You Gotta Have Heart . . .

Lots and Lots and Lots of Heart

St. Leo is built on "heart." The foundation is love. Love for one another. This foundational core of love fuels us and pulses throughout all of our lives in actions and simple deeds of human kindness for one another. Within each of us is the tangible heart but also the spiritual heart. As a building is built of bricks, we create a wonderful house built of love when one hand reaches out and another receives, and then another, and another. As a parish, let us continue to be the heartstring for the thousands we serve and share in ministry; individually, let us reach out with our hearts to all, and remember to sing out "You gotta have heart...lots and lots and lots of heart."
