

HONEYSUCKLE GARDEN TRICK

Ben Nova from our Fresh Start Farm has been clearing honeysuckle at the garden's edge. What's his trick? Take a (preferably) black plastic trash bag, put over the honeysuckle, secure all around the bottom with dirt and rocks. In a few weeks it will basically suffocate. It sure beats using poison the ground!

*“Help us to be ever faithful gardeners of the spirit,
who know that without darkness nothing comes to birth,
and without light nothing flowers.”*

— May Sarton
